

## Incompatible Video Format

---

### VIDEO FORMAT ERRORS INCLUDE:

**Video Formats:** Acceptable formats include: MPEG, MPG, MP4, MOV.

- Accepted video codecs are Apple ProRes422, H.264 Quicktime, and MPEG Transport Stream
- If your file has rejected for being in an .m2t format, manually change the file extension to .mpg and try resubmitting.
- Uploads that are not in these formats will be rejected.

All of these issues can be adjusted from within the export settings in your video editor.
